

SAFETY DATA SHEET Recovery Glide Tattoo Lubricant

SECTION 1 - IDENTIFICATION AND COMPANY DETAILS

Product Name: Recovery Glide Tattoo Lubricant
Product Code: MED-449 (Jar) & MED-452 (Pouch)
Product Use(s): Cosmetic
Manufacturers Name: Recovery, Inc.
Address: 7410 Coca Cola Drive. Unit 102
Hanover, MD 21076
Telephone Number: 410-712-0145
Date Prepared: Aug. 15, 2019

SECTION 2 – HAZARD(S) IDENTIFICATION

Eye Contact: Avoid contact with the eyes. May be irritating.
Skin Contact: No adverse effects due to skin contact are expected. Stop use if irritation persists.
Ingestion: Do not ingest.
Inhalation: No adverse effects due to inhalation are expected.
Other Health Effects: None.

Classification of the substance or mixture: Non-hazardous mixture.
Classification according to Directive 1999/45/EC: Non-hazardous preparation.
GHS Label Classification: Not classified as dangerous under EC/GHS criteria
Not expected to present a significant hazard under conditions of normal use.

Other hazards:

HMIS III Rating: Health – 1; May cause stomach dyspepsia if ingested.
Flammability - 0 Not combustible
Physical – 0 Not reactive PPI - B

SECTION 3 – COMPOSITION/INFORMATION ON INGREDIENTS

Hazardous Components:

This information is not looking at the product as a whole, but at individual components within the product. The finished product contains no components classified as hazardous under GHS Regulations. There are no physical hazards expected when the product is used as directed and intended.

Contains a proprietary anhydrous mixture. Significant ingredients comprise the following.

Chemical	C.A.S.#	Concentration	Classification
Petrolatum	8009-03-8	60.0 – 80.0%	Listed
Microcrystalline Wax	63231-60-7	10.0 – 20.0%	Listed
C12-15 Alkyl Benzoate	68411-27-8	1.0 – 5.0 %	Listed
Cetyl Esters (Palmitate)	540-10-3	1.0 – 5.0%	Listed

Hazardous components: none needing definition according to Annex II or Directive 1999/45/EC.

SAFETY DATA SHEET Recovery Glide Tattoo Lubricant

This product contains no substances listed under TSCA as hazards or that need to be considered according to EC 1907/2006 and amendments. Contains materials listed under EINECS, OSHA, ERCLA and Canada DSL as having control limit values (STEL) within the concentrations stated.

SECTION 4 - FIRST AID MEASURES

General Information: Not expected to be a health hazard when used under normal conditions.
Eye contact: Irrigate eye with warm water for several minutes; remove contact lenses if worn.
Skin contact: No irritation or adverse symptoms expected. Not expected to be a chronic irritant on normal contact with human skin.

Ingestion: Considered a non-toxic irritant. Give two glasses of cold water.
Do not induce vomiting. Never give an unconscious person anything by mouth.

Inhalation: If aerosolized and inhaled, assure victim is breathing fresh air. Seek medical attention immediately.

Note to Physicians: Use supportive measures as needed.

SECTION 5 - FIRE-FIGHTING MEASURES

Flash Point (closed cup): >280°C	UEL: N/A	LEL: N/A
----------------------------------	----------	----------

Extinguishing Media: Foam, dry powder, carbon dioxide where applicable.
Special hazards of the mixture: Autoignition temperature is near 300°C (570°F).
Hazardous decomposition includes: Carbon monoxide upon complete thermal oxidation.

Fire Fighting Equipment / Instructions: Self-contained breathing apparatus and full protective clothing should be worn when fighting chemical fires.

Advice for firefighters: None needed, will not support flame while in solid state.
Combustibility occurs as liquified temperature rises above 200°C. Always fight fire from safe distance.
Use adequate respiration and personal protection equipment.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

General measures: First responders should wear protective eyewear.
Environmental precautions: Contain larger spills to prevent entry into drains and sewers.
This product will not disperse in water.
Methods and materials for cleaning up: Sweep or shovel spillage into appropriate waste receptacle.

SECTION 7 - HANDLING AND STORAGE

Precautions for safe handling: Rinse (wash) hands and other exposed areas before eating, drinking, or smoking.
Conditions for safe storage: Storage temperature: 5 - 55°C. Store in a tightly closed container in a cool, well ventilated place protected from physical damage.
Specific end use(s): Personal care product for skin moisturization.

SAFETY DATA SHEET Recovery Glide Tattoo Lubricant

SECTION 8 - EXPOSURE CONTROLS - PERSONAL PROTECTION

Exposure limits: Not measured
Exposure controls: Not applicable
Personal protective equipment:
Respiratory Protection: Needed [] Not Needed [X]
Ventilation (local): Needed [] Not Needed [X]
Eye Protection: Needed [] Not Needed [X]
Protective Gloves: Needed [] Not Needed [X]
Protective Clothing: Needed [] Not Needed [X]

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Physical state: Opaque soft solid
Color: Blue
Odor: Pleasant
pH: Anhydrous
Specific Gravity (density): 0.900 @ 25°C
%Non-volatiles: 100%
Viscosity (dynamic): Sedentary
Flash point (°C): >280°C
Freeze point (°C): Congeals below 50°C
Boiling Point (°C): Not measured
Vapor Pressure (mm Hg): < 24mm mercury
Evaporation Rate (Butyl Acetate = 1): Not measured
Solubility in water: Insoluble
Partition coefficient (n-octanol/water): Not measured

SECTION 10 – STABILITY AND REACTIVITY DATA

Reactivity: This mixture will not produce any reactive byproducts under normal conditions.
Stability: Chemically and physically stable under normal conditions.
Conditions to avoid: Will liquify above 50°C. Keep from excessive heat.
Incompatible materials: Avoid contact with strong oxidizing agents.
Possibility of hazardous reactions: None known.
Hazardous decomposition or byproducts: None if used for intended purpose.

SECTION 11 - TOXICOLOGICAL INFORMATION

Acute toxicity (oral): No data available. The toxic effects of this mixture are not known.
Acute toxicity (inhalation): No data available.
Acute toxicity (dermal): No data available.
Irritation/corrosion of the skin: No data available.
Serious eye irritation: No data available.
Respiratory/skin sensitization: No data available.
Mutagenicity: No data available.

SAFETY DATA SHEET Recovery Glide Tattoo Lubricant

CMR Assessment

Carcinogenicity: No component listed by NTP, IARC, ACGIH or OSHA as a carcinogen

Specific target organ toxicity: No data available

Aspiration hazard: No acute toxicity classification

Other information: Though this mixture has not been tested for toxicity characteristics, there is no evidence of harmful effects from available information.

This product has not been tested as a whole. This review has taken into consideration available safety-related information including information on individual ingredients, similar formulas and potential ingredient interactions. This review is a component of the hazard determination used to prepare the statements in Section 3 of the SDS.

SECTION 12 - ECOLOGICAL INFORMATION

Toxicity: This product has not been tested for environmental effects. It is not expected to create a significant risk to the environment in its original state.

Persistence and degradability: No data available.

Bio-accumulative potential: No data available.

Mobility in soil: No data available. Product mobility predicted to be poor.

SECTION 13 - DISPOSAL CONSIDERATIONS

Any disposal practice must be in compliance with local, state and federal laws and regulations (contact local or state environment agency for specific rules). Do not dump in sewers, any body of water or on the ground. This product is not considered a hazardous waste.

SECTION 14 - TRANSPORT INFORMATION

USDOT: Class 65

Highway/rail (USDOT): Not regulated

Packing Group: Not dangerous

International information:

Ground (IATA): Not regulated

Vessel (IMDG): Not regulated

Air (ICAO): Not regulated

Not hazardous according to RID, ADR, IMDG, CFR and TDG

SECTION 15 - REGULATORY INFORMATION

SARA Title II Section 311/312 hazard categories: Not reportable

SARA Title II Section 313 toxic chemicals: Not reportable

California Proposition 65: Not reportable

TSCA Inventory status: All the components of this product are either included on or exempt from the TSCA Inventory of Chemical Substances.

Classification according to REACH: preparation, compliant.

Carcinogenicity: NTP: Not listed IARC: Not listed OSHA Regulated: No
